71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate–Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

## Welcome Message | The Korean Society of Plastic and Reconstructive Surgeons

President of the Korean Society of Plastic and Reconstructive Surgeons

### **Dong Kyun Rah**

With the season of harvesting around the corner, I believe that the members of Korean Society of Plastic and Reconstructive Surgeons and their families are in good health and peace.

The history of plastic surgery in South Korea is not long compared with the advanced nations, but the level of its plastic surgery has improved to lead the field globally. In recent years, however, many non-specialists take increasingly reckless part in our unique field and raise a bunch of problems difficult to solve. Facing this crisis, the most active solution will be to guarantee differentiating results for patient care by actively participating in conferences and research meetings and developing our own theories and techniques.

After it was recently decided to hold the conference of the Society only once a year, the importance of its autumn conference has become stronger. This year, the Conference will go in tandem with the international conference of Oculoplastic Surgery Society as plastic surgery for the eyes is regarded as one of the most important areas by many members and has always been the focus of interest and conversation. For the autumn conference, we have invited Prof. Kenneth E. Salyer, one of the leading figures in modern American plastic surgery, and Prof. Eduardo D. Rodriguez of Johns Hopkins University, one of the pioneers in facial transplants. They will give special lectures and participate in symposiums. The autumn conference will also present a range of interesting panels and symposiums across many different fields that will attract your attention. We expect the active participation of the members and specialists.

I hope that the autumn conference will give you a chance to share your knowledge, techniques, and deep friendship with your respected predecessors, warmhearted colleagues, loving successors, and fellow members working hard for the growth of plastic surgery at other institutions and areas.

Thank you.

In the autumn of 2013

## Welcome Message | The Korean Society of Plastic and Reconstructive Surgeons

Chairman, Board of Directors the Korean Society of Plastic and Reconstructive Surgeons

**Kyung Suk Koh**

The season of rich and abundant harvests is here. It is my great pleasure to meet you again after a year in this refreshing season fit for activities after the hot and steamy summer. Since 2009 when we decided to hold a conference of Korean Society of Plastic and Reconstructive Surgeons only once a year in fall, the opportunities to gather together the entire membership have decreased. As sorry as I am for the lost opportunities, I have made it sure that the conferences will offer more diverse programs at a higher level.

For this year, we have arranged a special lecture and symposium presentation by inviting Prof. Kenneth E. Salyer, who is widely known as the master of plastic surgery. Attracting attention as the next generation leader in plastic surgery, Prof. Eduardo D. Rodriguez at Johns Hopkins University will give a lecture on facial transplants and participate in a facial reconstruction symposium. This year's conference will be accompanied by the international conference of Oculoplastic Surgery Society, thus promoting the excellence of South Korea's plastic surgery for the eyes worldwide and offering the members a wonderful opportunity to take part in an additional conference at the same time and place. There is no exaggeration about the importance of balance growth between reconstructive and cosmetic surgery. The growth of the basic fields can especially have enormous impacts on the future of plastic surgery. As the clinical application that started in the researches on adipose-derived stem cells has become regenerative medicine, its competition with other departments has grown even fiercer. Both opening and staff members should conduct collaborative translational researches, thus maintaining the status of plastic surgery and further highlighting its excellence and differentiation.

The changes to the surrounding situations of the medical community in recent years seem to grow more distant from the directions that the medical community wants. In their aftermath, plastic surgery is also faced with raging challenges in the medical community. Given the nature of plastic surgery closely related to the economic situations, many of the members are having a financial difficulty. Even the Society is having increasing conflicts with other departments and medical fields. In these times, it is imperative that we should remember the Society's values of existence, namely the development of the science and the friendship and solidarity of the members. Your wisdom and active participation are desperately needed to keep our own territory and expand further by excavating a new field. I hope you will enjoy the rich and rewarding programs of the Conference to the fullest and have heartwarming and pleasant meetings.

November, 2013

## 2013 KSPRS International

71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate-Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

## Welcome Message | The Korean Cleft Palate-Craniofacial Association

President of the  
Korean Cleft Palate-Craniofacial Association

**Suk Wha Kim**

Chairman, Board of Directors the  
Korean Cleft Palate-Craniofacial Association

**Sam Yong Lee**

I happily and cordially invite you to the festival of showcasing the marvelous results of patient care and researches for the last year. It is a well-known fact that plastic surgery was created for craniofacial external and functional restoration. The field of plastic surgery was established to fully and perfectly restore the face representing a person's character for those who suffered from a cleft lip and palate, malocclusion, damage to the facial nerves, hemifacial microsomia, and craniosynostosis. The field has continued to grow and develop in the sense of traditional science and evolved into a field encompassing the external and functional aspects of the entire body today. In training hospitals, reconstructive surgeries were mainly carried out and did not secure popularity like cosmetic surgeries. However, the content of reconstructive surgeries has been the delivery room for the science and technology of plastic surgery from the most basic surgeries to the highly technical ones like a free flap and from skin grafts researches to stem cell researches. The spring craniofacial symposium has been organized to allow the participants to acquire the basic techniques of the entire maxillofacial surgery stages for both the specialists with many years under their belts and the beginning specialists. The fall meeting will present a program focused on congenital malformation, especially the treatment of secondary complications of cleft palate. The autumn conference was designed to for the distinguished scholars to demonstrate the practice of cranio-maxillo-facial surgery based on the basic knowledge and their wisdom for better results. The venue for presenting the carefully selected surgeries carried out in each classroom and the research findings of high level will be the coordinates for the growth and development of craniofacial plastic surgery to all plastic surgeons. This year, we will invite Kenneth E. Salyer, Dr. Rodriguez, one of the leading figures with a global reputation in plastic surgery, who will exchange opinions with the professors that have been devoted to the field of distraction osteogenesis in the nation. Today our Association has been orienting itself to the world. In 2012, the European Society of Craniofacial Surgery set up "Korean Session" in its conference held in Dubrovnik, Croatia and witnessed many scholars all over the world carefully listening to the session. We are determined to make further progress, invite plastic surgeons all over the world, and create a chance to promote the plastic surgery level of South Korea. I hope you will remain committed to ongoing academic researches based on passion and persistence and be the guide leading the new craniofacial treatments.

Once again I wish for the good health of the academic committee, senior staffs, and speakers leading the Association and the participating members.

November, 2013

## Welcome Message | 1<sup>st</sup> Asian Blepharoplasty Forum

President of  
1st Asian Blepharoplasty Forum (ABF)  
**In Chang Cho**

Chairman of  
Korean Association of Oculoplastic Surgery (KAOPS)  
**Seung Ha Park**

All the grains and fruits of a bountiful harvest season, we are pleased with welcome for held KSPRS: Korean Society of Plastic and Reconsturctive Surgeon operate with ABF: Blepharoplasty Forum.

In the meantime, our constant effort in the fall of that academic congress hope to harvest the magnificent.

Especially, this KSPRS academic congress is the first co-hosted by the International Convention that means even more significant. Korean Association of Oculoplastic Surgery is made in 2004 and do severe discussion of the academic every month, also organize a meeting academic for every plastic surgeons. Every year we held oculoplasty symposium. All the times we develop so we can magnify and held as international level of Asian Blepharoplast Forum. Korea's oculoplasty is oneself and others is recognized by the world's top level. Especially, plastic surgery for eye in asian is top level. For all the plastic Surgeons of South Korea's efforts, but especially Korean Association of Oculoplastic Surgery.

In this year of ABF, we've prepared panels and this symposium covering every part of blepharoplasty.

Special seminal of Dr. In Chang Cho who was the president of the first ABF and devoted to the development KAOPS so far, is held. In international blepharoplasty Session, debate of universally known plastic surgeons such as Dr Ichinose, Hung, Mizuno, Weng, Liao, Mahatumarat, is included. Also blepharoplasty session with live surgery of blepharoplasty is prepared. We welcome and feel gratitude for the 30 people of International members of ABF who attend ABF this year. We also feel great gratitude for members of Korean Association of Oculoplastic Surgery including Yong Ho Shin, the chief of this academic society, Soki Yi, the chairman of arrangement committee, and Tae Joo Ahn, the manager.

Hope all the participants of this academic competition enjoy the time provided by ABF and have great and fulfilling time in this meeting. Wish ABF every success in the future.

Thank you very much.

## The Korean Society of Plastic and Reconstructive Surgeons

### **Eduardo D. Rodriguez M.D., D.D.S.**

University of Maryland School of Medicine and Johns Hopkins School of Medicine

#### **Special Lecture**

November 1th, Friday 11:30~12:30 Room I~III

**Title: Face Allotransplantation**

Moderator: **Kyung Suk Koh** (Chairman, Board of Directors KSPRS / Univ. of Ulsan)

Dr. Eduardo Rodriguez is a native Floridian who received a Bachelor of Science in Neurobiology from the University of Florida in 1988, followed by a DDS degree from New York University in 1992. He pursued Oral & Maxillofacial Surgery training at Montefiore Medical Center/Albert Einstein College of Medicine in New York and completed his residency in 1997. He continued on to the Medical College of Virginia, receiving his MD degree in 1999. He completed his prerequisite general surgery training at Johns Hopkins Hospital in 2001 and was accepted to the combined plastic surgery program at Johns Hopkins Hospital / University of Maryland Medical Center, where he completed training in 2003. He subsequently completed an International Reconstructive Microsurgery Fellowship at Chang Gung Memorial Hospital in Taipei, Taiwan in 2004.

Dr. Rodriguez is a Diplomate of the American Board of Oral and Maxillofacial Surgery and Plastic Surgery. He is currently Chief of the Plastic and Reconstructive Surgery Division at R Adams Cowley Shock Trauma Center, Associate Professor of Surgery at University of Maryland School of Medicine and Johns Hopkins School of Medicine, and Program Director of the Craniofacial Fellowship at R Adams Cowley Shock Trauma Center and Johns Hopkins Hospital.

### **Kenneth E. Salyer, M.D.**

Founder & Chairman World Craniofacial Foundation

#### **Keynote Speech**

November 2th, Saturday 11:00~12:00 Room I~III

**Title: Life That Matters: Development of Craniofacial Surgery**

Moderator: **Dong Kyun Rah** (President of the KSPRS / Yonsei Univ.)

Kenneth E. Salyer, M.D., is internationally recognized as a pioneer and leader in craniofacial surgery. In 1989, he established the World Craniofacial Foundation to treat children who had nowhere else to turn. He is also founder of the International Craniofacial Institute and the Cleft Lip and Palate Treatment Center at Medical City Hospital in Dallas, Texas.

While Dr. Salyer has performed hundreds of equally complicated surgeries, one case that profoundly impacted him was the successful separation of conjoined Egyptian twin boys Ahmed and Mohamed Ibrahim in 2003. The story attracted overwhelming national and international media coverage, and remains one of Dr. Salyer's most poignant memories of his career.

Dr. Salyer is author of the recently published book, *A Life That Matters*. He also travels as a sought-after motivational speaker, sharing memories and lessons from a lifetime of medical philanthropy.

## Invited Speaker

### The Korean Cleft Palate-Craniofacial Association

**Kaneshige Satoh, M.D., Ph.D.**

Professor of the Department of Plastic and Reconstructive Surgery, Chiba Univ., Chiba, Japan

**Craniofacial Session 2** [Abstract page: 92]

Theme: Distraction Osteogenesis in Craniofacial Reconstruction

November 1st, Friday, 14:30~15:30 Room I

**Title: Distraction osteogenesis for craniosynostosis**

### Asian blepharoplasty Forum

**Akihiro Ichinose, MD, PhD**

Associate professor of department of plastic surgery, Kobe university, Graduate school of medicine, Kobe, Japan

**Charan Mahatumarat**

Professor Charan Mahatumarat.

M.D., F.I.C.S., F.R.C.S.T

Professor Emeritus, Division of plastic surgery, Faculty of Medicine, Chulalongkorn University.

Director, Princess Sirindhorn Craniofacial Center, King Chulalongkorn Memorial Hospital

**Martin H.S. Huang**

Martin Huang is a plastic surgeon in private practice The Cosmetic Surgery Clinic in Singapore

**Shu Lang, Liao**

Department of Orthodontic,

Department of Ophthalmology,

Division of Oculoplastic and Orbital Surgery,

National Taiwan University,

College of Medicine, Taipei, Taiwan

**Tsutomu Mizuno**

Anesis Biyogeka Clinic, Aichi, Japan

**Xing Xin**

Department of Plastic Surgery,

Shanghai Changhai Hospital, China

**George CJ Weng, M.D.**

Chang Gung Memorial Hospital, Taipei, Taiwan

## Sessions

### Session 1

November 1st, Friday, 08:30~09:30 Room I

Theme: **Compression Neuropathy of the Ulnar Nerve**

Moderator: **Yoon Kyu Chung** (Yonsei Univ. Wonju College of Medicine),  
**Nae Ho Lee** (Chonbuk National Univ.)

- *Cubital tunnel syndrome: Subcutaneous anterior transposition*  
**Seung Suk Choi** (Hanyang Univ.) / 56
- *Cubital tunnel syndrome: Subfascial submuscular transposition*  
**Sung No Jung** (The Catholic Univ. of Korea) / 57
- *Cubital tunnel syndrome: Medial epicondylectomy*  
**Goo Hyun Baek** (Orthopedic Surgery, Seoul National Univ.) / 58
- *Guyon's canal syndrome*  
**Sang Hyun Woo** (W Hosp.) / 60

#### **Purpose and Intent**

Ulnar Nerve Compression is the second most common of compression neuropathy in people. (Carpal Tunnel Syndrome is the first) We deal with Ulnar Nerve Compression systematically, and specifically a treatment of Cubital Tunnel Syndrome is discussed in considerable detail.

### Session 2

November 1st, Friday, 08:30~09:30 Room II

Theme: **Wound Bioburden**

Moderator: **Seung Kyu Han** (Korea Univ.), **Deuk Young Oh** (The Catholic Univ. of Korea)

- *The Problem of Bacterial Load in Chronic Wounds*  
**Seung Kyu Han** (Korea Univ.) / 64
- *Diagnosis Methods Using Image Processing Technique*  
**Min Hee Lee** (Ulsan Univ., Radiology) / 65
- *Diagnosis Methods Using Tissue Culture and Serum*  
**Won Keun Song** (Hallym Univ., Laboratory Medicine) / 65

#### **Purpose and Intent**

Excessive bacterial load is the most common and the important factor which is able to interrupt curing of chronic wounds and this is also the most difficult part of a diagnosis including a wound infection. We intend to have considerable understanding of a diagnosis and a treatment of the excessive bacterial load through a discussion.

## Sessions

### Session 3

November 1st, Friday, 08:30~09:30 Room III

#### Theme: Current Keloid Management

Moderator: **Jin Sik Burm** (Kyung Hee Univ.), **Won Jai Lee** (Yonsei Univ.)

- *Clinical causes & pathogenesis of keloid* **Eun Key Kim** (Ulsan Univ.) / 68
- *Non-surgical combination therapy of keloid* **Ho Yun Chung** (Kyungpook National Univ.) / 69
- *Keloid treatment with pneumatic hyaluronic acid infiltration*  
**Beom Joon Kim** (Chung-Ang Univ., Dermatology) / 69
- *Combination of surgery & adjuvant therapy* **Jin Sik Burm** (Kyung Hee Univ.) / 70

#### Purpose and Intent

Keloid is a malignant disease, unattractive and difficult to treat, on the clinical diagnosis; unlikely hypertrophic scars, it is positive on the historical diagnosis because it invades surrounding normal skin. Keloid mechanism of pathogenesis has not been clearly identified until now. However, Keloid would be one field of plastic surgery as currently various single/combined therapy techniques is developed and this makes successful treatment rate. Based on this current status, we will organize the mechanism and discuss the cause, moreover, present new treatments and the effects of that.

### Session 4

November 1st, Friday, 09:30~11:00 Room I

#### Theme: Common Hand Injury

Moderator: **Hee Chang Ahn** (Hanyang Univ.), **Jin Soo Kim** (Sung Ae General Hosp.)

- *Mallet finger* **Si Young Roh** (Sung Ae General Hosp.) / 72
- *Common injury of thumb* **So Min Hwang** (Good Moonhwa Hosp.) / 73
- *Distal radius fracture* **Nae Ho Lee** (Chonbuk National Univ.) / 73
- *Volar plate and collateral ligament injury of digits* **Sae Hwi Ki** (Inha Univ.) / 74
- *Boxer's fracture* **Jin Soo Kim** (Sung Ae General Hosp.) / 74

#### Purpose and Intent

Introducing principles and methods of treatments for common hand trauma

# 2013 KSPRS International

71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate–Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

## Sessions

### Session 5

November 1st, Friday, 09:30~11:00 Room II

Theme: **Experiential Model for Regeneration Research**

Moderator: **Woo Seob Kim** (Chung-Ang Univ.), **Hak Chang** (Seoul National Univ.)

- *Tendon healing model* **Sae Hwi Ki** (Inha Univ.) / 76
- *Bone healing model* **Jong Woo Choi** (Ulsan Univ.) / 76
- *Skin healing model* **Dae Gu Son** (Keimyung Univ.) / 77
- *Angiogenesis model* **Hak Chang** (Seoul National Univ.) / 77

#### **Purpose and Intent**

Experts will have time to review useful testing models as each organization or institution when you study tissue regeneration, a basis of academic research for plastic surgery.

### Session 6

November 1st, Friday, 09:30~11:00 Room III

Theme: **Update in Vascular Anomalies**

Moderator: **Ho Yun Chung** (Kyungpook National Univ.),  
**Young Joon Jun** (The Catholic Univ. of Korea)

- *Clinicopathologic classification of vascular anomalies* **Ho Yun Chung** (Kyungpook National Univ.) / 80
- *Recent updates in radiological management of CVA* **Jong Min Lee** (Kyungpook National Univ., Radiology) / 81
- *Updated medical therapy of hemangioma* **Suk Jong Lee** (Kyungpook National Univ., Dermatology) / 82
- *Laser treatment of vascular malformations* **Young Gull Kim** (S&U Dermatology Clinic) / 82
- *Comprehensive surgical care of vascular malformation* **So Young Lim** (Sungkyunkwan Univ.) / 83

#### **Purpose and Intent**

Vascular Anomaly had been an unexplored field for a long time, but recently new concepts and treatments of a variety of disease have been introduced. We will discuss a disease, currently introduced, including its concept, diagnosis, treatment, and etc. through this session.

## Sessions

**Session 7**

November 1st, Friday, 13:30~14:30 Room II

**Theme: New Area; Robot Surgery & Imaging Technology in Plastic Surgery**Moderator: **Yong Oock Kim** (Yonsei Univ.), **Eul Sik Yoon** (Korea Univ.)

- *What is the role of the Robot in plastic surgery?* **Eul Sik Yoon** (Korea Univ.) / 100
- *Medical imaging processing & application for surgery simulation*  
**Helen Hong** (Seoul Womens Univ., College of Information & Media, Multimedia) / 100
- *Plastic surgery applications using medical imaging process according to Patient-Specific design* **In Myung Kim** (Fusiontek, MIMICS) / 102
- *Robotic surgery 2013: New platforms and technology for plastic surgery*  
**Koon Ho Rha** (Yonsei Univ., Urology) / 102

**Purpose and Intent**

In the 21st Century Reconstructive ladder, robotic surgical system, simulation, and Telemedicine have been introduced as well as existing reconstructive methods. To find the next growth engine of plastic surgery in the future, we should have interests in other fields of a science, associated with the current health care.

**Session 8**

November 1st, Friday, 13:30~14:30 Room III

**Theme: Updates in Head and Neck Reconstruction**Moderator: **Hee Chang Ahn** (Hanyang Univ.), **Goo Hyun Mun** (Sungkyunkwan Univ.)

- *Experience with ulnar forearm flap* **Sae Hwi Ki** (Inha Univ.) / 104
- *Updates in pharyngeal reconstruction* **Sang Ha Oh** (ChungNam National Univ.) / 104
- *Robotic microsurgery for head and neck reconstruction* **In Sik Yun** (Yonsei Univ.) / 105
- *Reconstruction and rehabilitation by head and neck surgeon*  
**Han Sin Jeong** (Sungkyunkwan Univ., Otorhinolaryngology-Head & Neck Surgery) / 106

**Purpose and Intent**

The purpose of this session is to learn the latest trends and knowledge for head and neck reconstruction.

## Sessions

### Session 9

November 1st, Friday, 14:30~15:30 Room II

Theme: **Photodynamic Therapy (PDT)**

Moderator: **Jin Sik Bum** (Kyung Hee Univ.)

- *Introduction of PDT and application for hemangioma*  
**Jae Hoon Choi** (Gyeongsang National Univ.) / 108
- *Photodynamic therapy in cancer*  
**Pil Sang Chung** (Dankook Univ., Otorhinolaryngology-Head & Neck Surgery) / 108
- *PDT in dermatology and new photosensitizer indole-3-acetic acid*  
**Kyung Chan Park** (Seoul National Univ., Dermatology) / 109

### Session 10

November 1st, Friday, 14:30~15:30 Room III

Theme: **Reconstruction of Vascular Compromised Lower Extremity**

Moderator: **Myong Chul Park** (Ajou Univ.), **Kwang Seog Kim** (Chonnam National Univ.)

- *Endovascular intervention of lower extremity* **Seung Hwan Lee** (Ulsan Univ., Cardiology) / 112
- *Use of disrupted leg artery and vein as recipient vessels* **Seong Ho Jeong** (Korea Univ.) / 112
- *Fasciocutaneous flap coverage after endovascular angioplasty of recipient artery*  
**Il Jae Lee** (Ajou Univ.) / 113
- *Reconstruction after angioplasty in diabetic patients* **Joon Pio Hong** (Ulsan Univ.) / 113

#### **Purpose and Intent**

Much progress has been made in the reconstruction of lower extremity defects. However, because vascular compromise due to trauma or diseases is common in the lower extremity, many difficult challenges continue to exist. In this session, we will discuss various methods for reconstruction of vascular compromised lower extremity.

## Sessions

### Session 11

November 1st, Friday, 16:00~17:00 Room II

#### Theme: New Trend of the Varicose Vein

Moderator: **Ho Yun Chung** (Kyungpook National Univ.), **So Young Lim** (Sungkyunkwan Univ.)

- *Introduction of varicose vein* **Seung Heo** (Kyungpook National Univ., Vascular Surgery) / 116
- *Sclerotherapy of the varicose vein* **Young Ki Shim** (Yonsei S Hosp.) / 116
- *Endovenous Laser Treatment(EVLT) for Varicose Veins*  
**Jae Young Kim** (Gangnam Yonsei Thoracic and Cardiovascular Surgery) / 118

#### Purpose and Intent

Varicose vein is considered lightly compared to the other diseases, but it would be a concern to a patient. There could be different concepts or approaches each clinical department even a disease is same. We will discuss about varicose vein together and have a chance to get an opinion from experts in different departments.

### Session 12

November 1st, Friday, 16:00~17:00 Room III

#### Theme: The Management for the Late Deformity of the Burn Injury

Moderator: **Jeong Yeol Yang** (Chosun Univ.), **Chung Hun Kim** (CHA Univ.)

- *The pediatric hand burn* **Young Chul Jang** (Hallym Univ.) / 122
- *Reconstructive burn surgery of the head and neck* **Dae Gu Son** (Keimyung Univ.) / 123
- *Management of postburn sequelae of extremities/hand burn* **Dong Chul Kim** (Konyang Univ.) / 123
- *Dermabrasion & laser therapy* **Jai Koo Choi** (Hallym Univ.) / 125

#### Purpose and Intent

Transformation that occurs after burns makes patients to have externally serious functional problems as well as emotional problems, and patients makes it difficult to return to normal life. Thus, plastic surgeons need to recognize proper reconstruction methods, and help the patient, suffering from burn sequelae, to return to the society. Plastic surgeons have pivotal roles for the patients.

## 2013 KSPRS International

71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate–Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

## Sessions

### Session 13

November 2nd, Saturday, 09:00~10:30 Room I

#### Theme: Facial Reconstruction

Moderator: **Tai Suk Roh** (Yonsei Univ.), **Seung Suk Choi** (Hanyang Univ.)

- *Secondary reconstruction of post-traumatic orbital deformity* **Yong Ha Kim** (Yeungnam Univ.) / 176
- *Burn reconstruction: Face* **Jong Wook Lee** (Hallym Univ.) / 176
- *Problems & solutions in facial reconstruction after skin cancer ablation*  
**Hak Chang** (Seoul National Univ.) / 177
- *Soft tissue reconstruction in face-free flap vs. various methods* **Won Jai Lee** (Yonsei Univ.) / 177

#### Purpose and Intent

Facial (trauma, tumor, or burn) reconstruction is considered with soft-tissue defects and aesthetic units of the face. The function of eyes and mouth are also considered carefully. In this session, we will have a time to share speaker's tips and thoughts about facial reconstruction as each cause.

### Session 14

November 2nd, Saturday, 09:00~10:30 Room II

#### Theme: Comparison of Toxin Products and Various Cosmetic Indications

Moderator: **Ki Young Ahn** (Dr. Ahn's Aesthetic Plastic Surgical Clinic),  
**In Dae Yun** (YNJ Aesthetic Plastic Surgical Clinic)

- *Comparison of botulinum toxin products and formulations: onset, duration, component*  
**Jong Seo Kim** (Dr. Kim's Aesthetic Plastic Surgical Clinic) / 180
- *Attractive neck-shoulder line formation with botulinum toxin*  
**Seong Yun Ha** (Well Aesthetic Plastic Surgical Clinic) / 183
- *Correction of gummy smile using botulinum toxin*  
**Dong Yeon Hwang** (Grace Aesthetic Plastic Surgical Clinic) / 184
- *Natural smile and mouth corner lift using botulinum toxin*  
**Nak Kwan Sung** (Dr. Sung's Aesthetic Plastic Surgical Clinic) / 184

#### Purpose and Intent

We will have a time to understand comparative study of botulinum toxin products first, and describe methods of making an attractive and feminine neck-shoulder line by using the products. Also we will discuss a safe and effective correction method of gummy smile and what a natural smile is.

## Sessions

**Session 15**

November 2nd, Saturday, 09:00~10:30 Room III

**Theme: Laser Treatment of Pigmented Lesion**Moderator: **Seung Ha Park** (Korea Univ.),  
**Jae Woo Park** (Dr. Park's Aesthetic Plastic Surgical Clinic)

- *Anti-angiogenic Treatment for Melasma* **Jie Hoon Kim** (Dr. Kim's Skin & Laser Clinic) / 188
- *Laser toning for Melasma* **Il Hwan Kim** (Korea Univ., Dermatology) / 188
- *Personal experiences in treatment of epidermal pigmented lesions*  
**Dae Woo Jeon** (S Aesthetic Plastic Surgical Clinic) / 196
- *Personal experiences in treatment of severe Ota nevi*  
**Eung Ok Choi** (Raum Aesthetic Plastic Surgical Clinic) / 197

**Purpose and Intent**

Melasma is the most frequently encountered skin lesion of female, but we do not know the true nature of melasma. We are unwilling to treat melasma for its relapsing or aggravating nature. This panel is made to suggest safe strategy for melasma management.

Other skin lesions are classified by their location: dermal and epidermal. Treatment of each type of skin lesion will be introduced by experienced laser surgeons.

**Session 16**

November 2nd, Saturday, 13:00~14:00 Room II

**Theme: Advance method of filler injection and new filler**Moderator: **Seung Kyu Han** (Korea Univ.), **Ye Shik Shin** (Navi Aesthetic Plastic Surgical Clinic)

- *Natural appearing lower eyelid roll in difficult cases*  
**Seong Yun Ha** (Well Aesthetic Plastic Surgical Clinic) / 230
- *How can we correct tear trough deformity and crow's feet using with plastic procedures*  
**Soo Young Cho** (Dr. Cho's Aesthetic Plastic Surgical Clinic) / 230
- *Autologous fibroblast injection with long-lasting filler*  
**Nak Kwan Sung** (Dr. Sung's Aesthetic Plastic Surgical Clinic) / 231
- *Facial Augmentation & Tightness using with Biostimulator Filler*  
**Ki Young Ahn** (Dr. Ahn's Aesthetic Plastic Surgical Clinic) / 231

**Purpose and Intent**

In this session, we deal with some difficult cases of filler infection such as tear trough deformity and wrinkle. Besides, we will discuss the new and personal experiences of filler infection on scarred eyes by lower eyelid correction, and etc. in order to make the pretarsal-fullness.

## Sessions

### Session 17

November 2nd, Saturday, 14:00~15:00 Room II

Theme: **Surgical Anatomy of Facial Rejuvenation**

Moderator: **Young Duck Jung** (Neo Aesthetic Plastic Surgical Clinic),  
**Jung Ho Choi** (Dr. Choi's Aesthetic Plastic Surgical Clinic)

- *Surgical anatomy of facial nerve* **Kun Hwang** (Inha Univ.) / 234
- *Surgical anatomy of facial retaining ligaments and spaces*  
**Min Hee Ryu** (Bio Aesthetic Plastic Surgical Clinic) / 235
- *Facial fat compartments* **Seong Ihl Kwon** (IDEA Aesthetic Plastic Surgical Clinic) / 235

**Purpose and Intent**

The purpose of this session is to understand anatomical meaning of major structures and consider clinical applications for more stable Facial Rejuvenation Surgery.

### Session 18

November 2nd, Saturday, 15:00~16:00 Room II

Theme: **Perioral Rejuvenation**

Moderator: **Yang Woo Kim** (Gacheon Univ.),  
**Se Yeong Kim** (Dr. Kim's Aesthetic Plastic Surgical Clinic)

- *Aging deformity of perioral area* **Byeong Cheol Kim** (BCI Aesthetic Plastic Surgical Clinic) / 238
- *Clinical anatomy and mouth cornus lift*  
**Joo Heon Lee** (April31 Aesthetic Plastic Surgical Clinic) / 238
- *Lip lift* **Sang Hwan Koo** (Grim Aesthetic Plastic Surgical Clinic) / 239
- *Ancillary treatment for perioral rejuvenation*  
**Young Woo Lee** (Leeview Aesthetic Plastic Surgical Clinic) / 239

**Purpose and Intent**

Understanding of Perioral area and aging Learning various procedures and techniques.

## Sessions

### Session 19

November 3rd, Sunday, 15:30~16:30 Room III

Theme: **Mandibular Contouring Surgery**

Moderator: **Dae Hyun Lew** (Yonsei Univ.),  
**Jin Soo Lee** (Faceline Aesthetic Plastic Surgical Clinic)

- *Evolution of concepts and techniques*  
**Yoon Seok** (Pladen Center for Maxillofacial and Plastic Surgery) / 360
- *Corticotomy of mandible*  
**Young Joon Kim** (Dream Aesthetic Plastic Surgical Clinic) / 360
- *Importance of mandible shape*  
**Sang Woo Lee** (DA Aesthetic Plastic Surgical Clinic) / 360
- *Soft tissue contouring after bone contouring surgery*  
**Jung Hwan Baek** (Yonsei Baek Aesthetic Plastic Surgical Clinic) / 361

#### **Purpose and Intent**

The concepts and techniques of Mandibular Contouring Surgery have been developed. In this session, we will discuss from basic concepts and techniques of Mandibular Contouring Surgery to new concepts and techniques (e.g., MCS is operated after considering entire outline of the mandible and soft tissue together, not simply cutting mandible.).

### Session 20

November 3rd, Sunday, 16:30~17:30 Room III

Theme: **Video Session – Facial Bone Procedures**

Moderator: **Rong Min Baek** (Seoul National Univ.),  
**Yoon Seok** (Pladen Center for Maxillofacial and Plastic Surgery)

- *Corticotomy of mandible*  
**Sang Joon Lee** (IDEA Aesthetic Plastic Surgical Clinic) / 372
- *Reduction malarplasty*  
**Jin Soo Lee** (Faceline Aesthetic Plastic Surgical Clinic) / 372
- *LeFort I osteotomy of maxilla*  
**Kang Young Choi** (Kyungpook National Univ.) / 372
- *Sagittal split ramus osteotomy of mandible*  
**Dae Hyun Lew** (Yonsei Univ.) / 372

#### **Purpose and Intent**

The purpose of this session is to show video clips of facial bones surgeries, and describe important precautions and special tips of a speaker for a safety in each case.

## Craniofacial Sessions

### Craniofacial Session 1

November 1st, Friday, 13:30~14:30 Room I

Theme: **Personal Experiences and Concept in the Management of Bilateral Cleft Deformity**

Moderator: **Suk Wha Kim** (Seoul National Univ.), **Sam Yong Lee** (Chonnam National Univ.)

- *Bilateral cleft lip* **Ki Il Uhm** (Konkuk Univ.) / 88
- *Cleft palate in bilateral cleft lip* **Kang Young Choi** (Kyungpook National Univ.) / 88
- *Secondary correction of bilateral cleft lip and palate* **Yong Chan Bae** (Pusan National Univ.) / 88

#### **Purpose and Intent**

European cleft center's survey revealed 194 different surgical protocols were used for primary closure of unilateral complete cleft. Unlike unilateral cleft, the protocol for bilateral cleft surgery has been controversial for several decades. Nasal deformities such as extreme short columella, caudally displaced and depressed cartilage, and alar flaring in bilateral cleft lip have not been solved. In addition, successful repair of wide palatal gap and restoring the excellent muscular movement in bilateral cleft palate surgery should be the surgical goal of bilateral cleft surgery. Although bilateral clefts are relatively rare especially in these days, we want to share our personal experience about these unusual cases.

### Craniofacial Session 2

November 1st, Friday, 14:30~15:30 Room I

Theme: **Distraction Osteogenesis in Craniofacial Reconstruction**

Moderator: **Yong Bae Kim** (Soonchunhyang Univ.), **Byung Chae Cho** (Kyungpook National Univ.)

- *Distraction osteogenesis for craniosynostosis* **Kaneshige Satoh** (Chiba Univ., Japan) / 92
- *Distraction in craniofacial surgery*  
**Kenneth Salyer** (Founder & Chairman World Craniofacial Foundation) / 92
- *Distraction osteogenesis for the midface deformity - Dual system application*  
**Dae Hyun Lew** (Yonsei Univ.) / 92

#### **Purpose and Intent**

Distraction osteogenesis has become an accepted method to treat cephalocranial disproportion and craniofacial deformity. The purpose of this session is to share many surgeon's personal experience as well as to review the development of cranial, midfacial, and mandibular distractions considerably.

## Craniofacial Sessions

### Craniofacial Session 3

November 1st, Friday, 16:00~17:00 Room I

**Theme: Facial Reanimation for Facial Nerve Palsy**

Moderator: **Seung Ha Park** (Korea Univ.), **Min Sung Tark** (Soonchunhyang Univ.)

- *Single stage reconstruction* **Goo Hyun Mun** (Sungkyunkwan Univ.) / 96
- *Two stage reconstruction* **Won Jai Lee** (Yonsei Univ.) / 96
- *Nerve transfer and cross-over* **Min Sung Tark** (Soonchunhyang Univ.) / 97

#### **Purpose and Intent**

Reanimation of the paralyzed face has been researched on various ways, mostly focused on neurovascular gracilis muscle transfer. To achieve dynamic smile visualization, using contralateral facial nerve by means of cross facial nerve grafting is widely accepted as a neurotization method. However, in the case of bilateral facial palsy or Mobius syndrome, we should have other considerations for nerve transfer surgery. In many cases, single-staged reconstruction should also be considered for facial reanimation in the old-aged patients who are not suitable for microvascular surgeries or the patients who do not want to take two-/ more than two-staged operations for the treatment. In this session, we will discuss various surgical techniques and determination and share other surgeon's experiences.

## 2013 KSPRS International

71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate–Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

# Breast Sessions

## Breast Session 1

November 2nd, Saturday, 13:00~14:00 Room I

### Theme: Preoperative Planning & Implant Selection

Moderator: **Eul Sik Yoon** (Korea Univ.), **Hong Ki Lee** (Image Aesthetic Plastic Surgical Clinic)

• *Transaxillary approach-anatomic implant*

**Soon Chan Um** (Um-Nagumo Aesthetic Plastic Surgical Clinic) / 216

• *Transaxillary approach-round implant*     **Won June Yoon** (Migo Aesthetic Plastic Surgical Clinic) / 216

• *Areolar omega incision*     **Paik Kwon Lee** (Apgugeong Avenue Aesthetic Plastic Surgery Clinic) / 217

• *IMF approach*     **Jin Seok Park** (Dr. Park's Aesthetic Plastic Surgical Clinic) / 217

### Purpose and Intent

People have a wide choice of breast implants as import increases currently. There are different application methods, advantage/disadvantage, and etc. as type and shape of each breast implant, and we want to talk about that. Also, we will have a discussion with panels have many experiences, and hope to help you to choose a breast implant.

## Breast Session 2

November 2nd, Saturday, 14:00~15:00 Room I

### Theme: Mastopexy & Reduction

Moderator: **Sang Tae Ahn** (The Catholic Univ. of Korea),

• *Explantation mastopexy*

**Hyung Bo Sim, Sang Hoon Sun** (BR Baram Aesthetic Plastic Surgical Clinic) / 220

• *Inverted T approach reduction*

**Jun Ho Lee** (Yeungnam Univ.) / 220

• *Vertical scar reduction-inferior pedicle*

**Sang Gue Kang** (Soonchunhyang Univ.) / 221

• *Vertical scar reduction-superiomedial pedicle*

**An Na Lee** (Optima Aesthetic Plastic Surgical Clinic) / 221

### Purpose and Intent

We will introduce applications and methods of Breast Lift and Breast Reduction first. Also, we have a time to discuss various methods and results of Breast Lift and Breast Reduction.

## Breast Sessions

### Breast Session 3

November 2nd, Saturday, 15:00~16:00 Room I

Theme: **Breast Reconstruction and Radiation Therapy**

Moderator: **Tai Suk Roh** (Yonsei Univ.), **Hak Chang** (Seoul National Univ.)

- *Coordinating radiation therapy with reconstruction*  
**Yong Bae Kim** (Yonsei Univ., Radiation Oncology) / 224
- *Radiation and implant-based reconstruction*  
**Chan Yeong Heo** (Seoul National Univ.) / 226
- *Breast Reconstruction in advanced breast cancer patients who need pre or post-mastectomy radiotherapy*  
**Jung Dug Yang** (Kyungpook National Univ) / 227
- *Challenges in reconstruction of partially defected breast after radiation; delayed post-BCS reconstruction*  
**Jin Sup Eom** (Ulsan Univ.) / 228

## Lipoplasty Sessions

### Lipoplasty Session 1

November 2nd, Saturday, 13:00~14:00 Room III

Theme: **Liposuction– Special Areas of Body**

Moderator: **Jae Woo Park** (Dr. Park's Aesthetic Plastic Surgical Clinic),  
**Sung Tack Kwon** (Seoul National Univ.)

- *Double Chin Liposuction* **Jun Young Choi** (Juneis Aesthetic Plastic Surgical Clinic) / 242
- *Facial Liposuction* **Jin Young Kim** (Arumdaunnara Aesthetic Plastic Surgical Clinic) / 242
- *Calf Liposuction* **In Goo Baik** (Jium Aesthetic Plastic Surgical Clinic) / 243

#### **Purpose and Intent**

Liposuction tends to be operated restrictively in the special area of body till now. Thus, we hope to increase people's interests and to develop the field of liposuction.

### Lipoplasty Session 2

November 2nd, Saturday, 14:00~15:00 Room III

Theme: **Cell Therapy for Facial Rejuvenation**

Moderator: **Ing Gon Kim** (Apkujung FEEL Aesthetic Plastic Surgical Clinic),  
**Hak Chang** (Seoul National Univ.)

- *Skin Regeneration with Fibroblast* **Nak Kwan Sung** (Dr. Sung's Aesthetic Plastic Surgical Clinic) / 246
- *Skin Regeneration with Stromal Vascular Fractions(SVF)*  
**Kwang Sik Kook** (IDEA Aesthetic Plastic Surgical Clinic) / 246
- *Skin Regeneration with Adipose-derived Stem Cell(ADSC)*  
**Hyun Jin Yang** (Baroil Aesthetic Plastic Surgical Clinic) / 246
- *Skin Regeneration with Platelet Rich Plasma(PRP)*  
**Hyun Seok Jung** (Gangnam Samsung Aesthetic Plastic Surgical Clinic) / 247

#### **Purpose and Intent**

We want to share various experiences of cell treatments that can help skin regeneration and wound healing.

## Nose Sessions

### Nose Session 1

November 2nd, Saturday, 16:30~17:30 Room I

Theme: **Functional Aspects in Aesthetic Rhinoplasty**

Moderator: **Man Koon Suh** (JW(Jeong Won) Plastic Surgery Center)

- *Physiology of nasal airway* **Hyun Soo Kim** (Nose Aesthetic Plastic Surgical Clinic) / 286
- *Preoperative nasal endoscopic evaluation*  
**Seung Hoon Lee** (Korea Univ., Otorhinolaryngology-Head & Neck Surgery) / 286
- *Management of septum and turbinate* **Eun Sang Dong** (Korea Univ.) / 286

#### **Purpose and Intent**

There are functional problems we might encounter in Aesthetic Rhinoplasty. We will discuss considerably about a necessity of preoperative endoscopic evaluation, Navi valve preservation after surgery, septal perforation, and turbinoplasty

### Nose Session 2

November 2nd, Saturday, 17:30~18:30 Room I

Theme: **Deviated Nose**

Moderator: **Eun Sang Dong** (Korea Univ.)

- *Complete mobilization of pyramidal structure*  
**Hyun Soo Kim** (Nose Aesthetic Plastic Surgical Clinic) / 290
- *Unilateral bony mobilization and dorsal septal suture fixation* **Jin Sik Burm** (Kyung Hee Univ.) / 290
- *What is straight nose?: The strategy for correcting nasal deviation*  
**Jae Hoon Kim** (April31 Aesthetic Plastic Surgery Clinic) / 291

#### **Purpose and Intent**

We will share personal thoughts of speakers what the most important procedure and technique are when they operate corrective nose surgery. Also we have a time to understand the causes and methods, and expect the results from each case.

## Nose Sessions

### Nose Session 3

November 3rd, Sunday, 09:00~10:30 Room I

Theme: **Narrow Nose Deformity: Pinched Tip & Dorsal Demarcation**

Moderator: **Jae Hoon Kim** (April31 Aesthetic Plastic Surgery Clinic)

- *Narrow nose deformity in secondary rhinoplasty*  
**Jae Yong Jeong** (PLUS Aesthetic Plastic Surgical Clinic) / 324
- *Preventive techniques for dorsal demarcation*  
**Se Hwee Hwang** (SEIN Aesthetic Plastic Surgical Clinic) / 324
- *Classification and treatment of pinched tip deformity*  
**Moo Hyun Paik** (101 Aesthetic Plastic Surgical Clinic) / 324

#### **Purpose and Intent**

Let you understand causes and treatments of pinched tip and demarcation of a nose implant. Also we will discuss specific prevention in a high risk category.

### Nose Session 4

November 3rd, Sunday, 11:00~12:00 Room I

Theme: **Case Analysis of Short Nose Correction**

Moderator: **Moo Hyun Paik** (101 Aesthetic Plastic Surgical Clinic)

- *With derotation graft*  
**Lo Shui Chu** (101 Aesthetic Plastic Surgical Clinic) / 328
- *With costal cartilage graft*  
**Han Jo Kim** (Eight Aesthetic Plastic Surgical Clinic) / 328
- *With septal extension graft*  
**Eun Taek Kang** (Migo Aesthetic Plastic Surgical Clinic) / 329
- *With dermis-fat & cartilage works in the revision cases*  
**Gyu Suk Hwang** (Homme & Femme Aesthetic & Plastic Surgery Clinic) / 329

#### **Purpose and Intent**

Short nose that can be used to calibrate the pros and cons of different ways, depending on the patient's case against other treatment options will be discussed in depth.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 1

November 2nd, Saturday, 16:30~17:30 Room II

#### Theme: International session (Lower Blepharoplasty)

Moderator: **Soki Yi** (101 Aesthetic Plastic Surgical Clinic)

- *Fat repositioning via supraperiosteal dissection with internal fixation for tear trough deformity in Taiwan*

**Shu Lang Liao** (National Taiwan University, College of Medicine, Taiwan) / 294

- *Subciliary augmentation of the lower eyelid using a deep temporal fascia graft in Asians*

**Tsutomu Mizuno** (Anesis Biyogeka Clinic, Japan) / 294

- *Lower blepharoplasty: Our experiences in selection of procedures and treatment of complications*

**Xing Xin** (Changhai Hosp., Second Military Medical Univ., China) / 294

- *Lower Eyelid Rejuvenation by Modified Hamra Technique*

**Martin Huang** (The Cosmetic Surgery Clinic, Singapore) / 295

#### Purpose and Intent

We will share the personal opinion of lower blepharoplasty from the Asian international speakers.

### Eye Session 2

November 2nd, Saturday, 17:30~18:30 Room II

#### Theme: Cutting Edge of New Technique

Moderator: **Hong Seok Kim** (Ohkims Aesthetic Plastic Surgical Clinic)

- *Correction of dry eye syndrome with upper eyelid ectropion*

**In Chang Cho** (Bio Aesthetic Plastic Surgical Clinic) / 298

- *Non incisional crease fixation using various tissue threads*

**Yeop Choi** (Choi Yeop Plastic Surgery Clinic) / 298

- *Depressor muscle division through a sub-brow excision for the improvement of brow ptosis*

**Eun Jung Lee** (LeeJung Aesthetic Plastic Surgical Clinic) / 299

- *Upper blepharoplasty in facial palsy patient: Combination lift technique*

**Dae Hwan Park** (Daegu Catholic Univ.) / 299

#### Purpose and Intent

To study or attempt new one continuously from existing methods or techniques is one of important duties as a plastic surgeon. This makes medical science to develop more in the future even though any method or technique has a problem now. We believe that these plastic surgeon's efforts will be a great foundation for the development of plastic surgery.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 3

November 2nd, Saturday, 17:30~18:30 Room III

Theme: **Minimal Invasive Ptosis Correction**

Moderator: **Yong Bae Kim** (Soonchunhyang Univ.),  
**Tae Joo Ahn** (JW(Jeong Won) Plastic Surgery Center)

- *Non-incision mild ptosis correction with single loop*  
**Moon Seop Choi** (Grace Aesthetic Plastic Surgical Clinic) / 302
- *Non-incisional ptosis correction*  
**Jang Woo Park** (YOUTIFUL VOM Plastic Surgery Clinic) / 302
- *Conjunctival ptosis correction*  
**Young Jun Lee** (Dr. Lee's Aesthetic Plastic Surgical Clinic) / 303
- *Balanced plication of Müller muscle tendon through conjunctiva for blepharoptosis correction*  
**Eun Jung Lee** (LeeJung Aesthetic Plastic Surgical Clinic) / 304

#### **Purpose and Intent**

The various methods and techniques are operated currently with minimal invasion in a ptosis correction surgery. We will compare these methods and techniques, and discuss advantages/disadvantages together in the session.

### Eye Session 4

November 3rd, Sunday, 08:20~09:00 Room II

Theme: **Various Fixation Methods for Achieving Natural Fold**

Moderator: **Seung Ha Park** (Korea Univ.)

- *Various fixation methods for achieving natural fold*  
**In Chang Cho** (Bio Aesthetic Plastic Surgical Clinic) / 322

#### **Purpose and Intent**

Existing surgery concepts and techniques can be complemented and developed positively by sharing techniques, methods, and problems with other surgeons. This session will be based on a survey targeted to plastic surgery specialists. We will discuss various methods of fold fixation and advantages/disadvantages, and emphasize important considerations again in the session.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 5

November 3rd, Sunday, 09:00~10:30 Room II

Theme: **Live Surgery I – Double Eyelid Surgery**

Moderator: **Yong Ho Shin** (BK Aesthetic Plastic Surgical Clinic),  
**Hae Min Lee** (Eyetop Aesthetic Plastic Surgical Clinic)

- *Double eyelid surgery using septoaponeurosis junctional thickening results in Dynamic fold in Asian* **Hong Seok Kim** (Ohkims Aesthetic Plastic Surgical Clinic) / 332
- *Double eyelid surgery using static fixation of tarsal plate and pretarsal tissue* **Dong Il Choi** (Regen Plastic Surgery) / 332
- *Nonincisional double eyelid surgery creating wide scar adhesion* **Woo Jin Chung** (ITEM Aesthetic Plastic Surgical Clinic) / 332

**Purpose and Intent**

Active discussion about various methods and techniques of double eyelid surgery by Live surgery.

### Eye Session 6

November 3rd, Sunday, 11:00~12:00 Room II

Theme: **Live Surgery II – Medial Epicanthoplasty**

Moderator: **Sung Yul Ahn** (Dr. Ahn's Aesthetic Plastic Surgical Clinic),  
**Yeop Choi** (Dr. Choi's Aesthetic Plastic Surgical Clinic)

- *Medial epicanthoplasty using the skin redraping technique* **Yeon Woong Oh** (Yonsei Aesthetic Plastic Surgical Clinic) / 336
- *Correction of epicanthal fold by split V-W plasty* **Jin Gyu Lee** (ABLE Aesthetic Plastic Surgical Clinic) / 337
- *Balanced epicanthoplasty* **Jang Woo Park** (YOUTIFUL VOM Plastic Surgery Clinic) / 337

**Purpose and Intent**

Presenting recently various noble techniques of the medial epicanthoplasty in Korea by Live surgery.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 7

November 3rd, Sunday, 13:00~14:00 Room I

Theme: Tear Trough Correction

Moderator: **Kun Hwang** (Inha Univ.),  
**Eun Jung Lee** (LeeJung Aesthetic Plastic Surgical Clinic)

- *Medial palpebral ligament* **Kun Hwang** (Inha Univ.) / 340
- *Tear trough correction using restylane and restylane vital*  
**Gi Woong Hong** (Hershe Aesthetic Plastic Surgical Clinic) / 340
- *Tear trough correction using free fat or filler injection*  
**Young Dae Kweon** (GangNam Aesthetic Plastic Surgical Clinic) / 341
- *Transconjunctival septal fat repositioning to correct tear trough*  
**Hun Bong Chun** (Apgujong Hanmi Aesthetic Plastic Surgical Clinic) / 342
- *Midface lift using orbital fat sliding and CPF to correct tear trough*  
**Eun Jung Lee** (LeeJung Aesthetic Plastic Surgical Clinic) / 343

#### Purpose and Intent

Tear trough is the most essential part of midface lift as well as lower blepharoplasty. This session will cover surgical procedures and results of tear trough correction using transconjunctival septal fat repositioning, filler injection, orbital fat sliding and CPF, or etc.

### Eye Session 8

November 3rd, Sunday, 13:00~14:00 Room II

Theme: Retrospective Analysis of Various Operation Method of Blepharoptosis

Moderator: **Sung Pyo Hong** (Bio Aesthetic Plastic Surgical Clinic),  
**Seung Han Song** (Chungnam National Univ.)

- *Retrospective analysis of non-incision method*  
**Tae Joo Ahn** (JW(Jeong Won) Plastic Surgery Center) / 346
- *Retrospective analysis of new plication method of levator complex*  
**Sung Pyo Hong** (Bio Aesthetic Plastic Surgical Clinic) / 347
- *Retrospective analysis of inner septum-Müller-aponeurosis lamina propria mucosa composite flap*  
**Dae Hwan Park** (Daegu Catholic Univ.) / 347

#### Purpose and Intent

The surgical methods of Blepharoptosis are choose and used differently as a case and degree of ptosis and strength of a levator palpebrae. However, just some parts of advantages/disadvantages and results each methods have been reported. I believe that it will be helpful to choose a surgical method or organize a surgical plan before operating surgery if the results we experienced for a long time would be accumulated and analyzed more systematically.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 9

November 3rd, Sunday, 14:00~15:00 Room I

Theme: **Lower Blepharoplasty**

Moderator: **Yong Bae Kim** (Soonchunhyang Univ.),  
**Hong Lim Choi** (JW(Jeong Won) Plastic Surgery Center)

- *Do upper and lower orbital fat have a connection?* **Kun Hwang** (Inha Univ.) / 350
- *Lateral canthoplasty* **Sung Pyo Hong** (Bio Aesthetic Plastic Surgical Clinic) / 350
- *Extended lower blepharoplasty* **Hong Lim Choi** (JW(Jeong Won) Plastic Surgery Center) / 351
- *Transconjunctival mid face lift* **Soki Yi** (101 Aesthetic Plastic Surgical Clinic) / 351

#### **Purpose and Intent**

Canthoplasty should be a purpose of extended lower blepharoplasty, and includes transconjunctival mid face lift. We will have in-depth discussions about lower blepharoplasty that includes these all procedures and techniques.

### Eye Session 10

November 3rd, Sunday, 14:00~15:00 Room II

Theme: **Natural Fold Line Formation in Incisional Method**

Moderator: **In Chang Cho** (Bio Aesthetic Plastic Surgical Clinic),  
**Min Soo Kim** (Yonsei Enb Aesthetic Plastic Surgical Clinic)

- *Tarsal plate fixation* **Kyun Tae Kim** (NYPS Aesthetic Plastic Surgical Clinic) / 354
- *Levator aponeurosis fixation* **Won Seok Jung** (Chutnoon Aesthetic Plastic Surgical Clinic) / 354
- *Septal fixation* **Byung Jun Ahn** (Secret Aesthetic Plastic Surgical Clinic) / 355
- *Tarsus and levator complex fixation* **Min Soo Kim** (Yonsei Enb Aesthetic Plastic Surgical Clinic) / 355
- *Natural fold formation by passive attachment to the levator aponeurosis*  
**Jin Suk Byun** (BS Aesthetic Plastic Surgical Clinic) / 356

#### **Purpose and Intent**

Discussions about various surgical fixation methods and surgical techniques in order to create a natural fold line in incision double eyelid surgery or Ptosis surgery.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 11

November 3rd, Sunday, 15:30~16:30 Room I, II

Theme: **International Session (Upper blepharoplasty)**

Moderator: **Dae Hwan Park** (Daegu Catholic Univ.)

- *Why are the complications of upper blepharoplasty happened?*  
**George Chau-Jin Weng** (Chang Gung Memorial Hospital, Taipei, Taiwan) / 358
- *Suture upper blepharoplasty* **Martin Huang** (The Cosmetic Surgery Clinic, Singapore) / 358
- *Upper blepharoplasty in aging patients, personal experience*  
**Charan Mahatumarat** (Chulalongkorn Memorial Hospital, Bangkok, Thailand) / 358
- *Small incision blepharoptosis repair for asian patients*  
**Akihiro Ichinose** (Kobe University, Graduate School of Medicine, Kobe, Japan) / 358

#### **Purpose and Intent**

Let's understand and learn outstanding Asian speaker's techniques about upper blepharoplasty.

### Eye Session 12

November 3rd, Sunday, 16:30~17:30 Room I

Theme: **My Repeated Failure of Eyelid Surgery**

Moderator: **Dae Hwan Park** (Daegu Catholic Univ.),  
**Yong Ho Shin** (BK Aesthetic Plastic Surgical Clinic)

- *Various difficulties in blepharoplasty* **Yeop Choi** (Choi Yeop Plastic Surgery Clinic) / 364
- *Failure of lateral extension of upper blepharoplasty*  
**Hong Seok Kim** (Ohkims Aesthetic Plastic Surgical Clinic) / 364
- *Multiple fold line caused by foreign body with sunken state*  
**Yong Ho Shin** (BK Aesthetic Plastic Surgical Clinic) / 365
- *My repeated failure of upper blepharoplasty in ptotic eyelid*  
**Dae Hwan Park** (Daegu Catholic Univ.) / 365

#### **Purpose and Intent**

A patient may suffer from repeated relapses when has a surgery. We will have a chance to listen the experience, and discuss together how to resolve the status.

## Eye Sessions (Asian blepharoplasty)

### Eye Session 13

November 3rd, Sunday, 16:30~17:30 Room II

Theme: Various Methods for Pretarsal Augmentation

Moderator: **Kyung Suck Koh** (Ulsan Univ.),

**Tae Joo Ahn** (JW(Jeong Won) Plastic Surgery Center)

- *Pretarsal roll augmentation with filler* **Moon Seop Choi** (Grace Aesthetic Plastic Surgical Clinic) / 368
- *Pretarsal augmentation with microfat graft*  
**Eun Sung Yoon** (Dr. Yoon's Aesthetic Plastic Surgical Clinic) / 368
- *Pretarsal augmentation with Alloderm graft*  
**Hong Lim Choi** (JW(Jeong Won) Plastic Surgery Center) / 368
- *Pretarsal augmentation with dermofat graft*  
**Eon Rok Do** (BK Dongyang Aesthetic Plastic Surgical Clinic) / 369

#### Purpose and Intent

Pretarsal fullness is an important factor to make young facial feature. In this session, we will present various methods of pretarsal augmentation.

## Mini-Conference

### Mini-Conference

November 3rd, Sunday, 15:30~16:30 Hangang Hall

#### Theme: Transplantation in Plastic Surgery

Moderator: **Seok Chan Eun** (Seoul National Univ.), **Jong Won Hong** (Yonsei Univ.)

- *2012 ASRT(American Society for Reconstructive Transplantation)*  
**Jong Won Hong** (Yonsei Univ.) / 398
- *The visiting report on 2013 IHCTAS(International hand & composite tissue allotransplantation society) and CAST(13th Congress of the Asian Society of Transplantation)*  
**Seok Chan Eun** (Seoul National Univ.) / 398
- *Ad-MSc & immune modulation via regulatory T cell* **Jung Hyun Lim** (Yonsei Univ., Hosp.) / 398
- *Dendritic cell therapeutic strategy for prevention of immune rejection*  
**Hwa Yong Ham** (Seoul National Univ., Hosp.) / 399

#### Purpose and Intent

Transplantation is still a long way off in plastic surgery field, but can not be denied. It could be vague in discussion to even plastic surgeons. Thus, we will prepare Mini-Conference soon to introduce basic research of transplantation and other conference in a general meeting of the Korean Society of Plastic and Reconstructive Surgeon.

## Instructional Course

### Instructional Course 1

November 1st, Friday, 07:30~08:30 Geumgang Hall

*Secondary Cheiloplasty and CLN Correction*

Speaker: **Ki Il Uhm** (Konkuk Univ.)

#### Purpose and Intent

I want to instruct many techniques and knowledge getting through personal experiences for the decades to other plastic surgeons in this course before my retirement.

### Instructional Course 2

November 1st, Friday, 07:30~08:30 Hangang Hall

*Hidden Facts in Reconstructive Microsurgery - Learning points through case by case*

Speaker: **Su Rak Eo** (DongGuk Univ.)

#### Purpose and Intent

Through over my 10-year experience as a microsurgeon, some cases left me much to be desired. Besides the basics of hemodynamics in free flap, I will show you very specific examples and emphasize didactic learning points from case by case. I hope that young microsurgeons can deal with difficult cases wisely when they come across in a similar situation in the future through this course.

### Instructional Course 3

November 1st, Friday, 08:30~09:30 Hangang Hall

*Intradermal injection of Restylane Vital & Dysport*

Speaker: **Jong Seo Kim** (Dr. Kim's Aesthetic Plastic Surgical Clinic)

#### Purpose and Intent

Intradermal injection of hyaluronic acid and botyul rinyum toxin is operated a lot. In this course, I will have a time to present exact injection methods and to discuss the intradermal injection more scientifically by comparing (before/after) pictures and taking a biopsy. Also, if possible, I will demonstrate to inject in the different actual conditions after my presentation.

### Instructional Course 4

November 2nd, Saturday, 08:00~09:00 Geumgang Hall

*Primary Rhinoplasty with Ear Cartilage & Silicone Implant (Video)*

Speaker: **Moo Hyun Paik, Lo Shui Chu** (101 Aesthetic Plastic Surgical Clinic)

#### Purpose and Intent

Using ear cartilage and silicon implant are one of common methods in primary rhinoplasty. We will show video clips of the whole process. We want to help you understand and access easily to the method through this course.

## Instructional Course

### Instructional Course 5

November 2nd, Saturday, 08:00~09:00 Hangang Hall

*Understanding the Aging Face* Speaker: **Jung Ho Choi** (Dr. Choi's Aesthetic Plastic Surgical Clinic)

#### Purpose and Intent

Everyone can not imagine a people with no face. This course is to understand basic aspects of a face such as a facial shape, a change process, and a functional feature. These understanding will be helpful in your treatment planning to regenerate beautiful young face whether it is surgical or not.

### Instructional Course 6

November 3rd, Sunday, 07:30~08:10 Room I

*How to Manage the Facial Nerve Palsy Induced Eye-lid Changes*

Speaker: **Sung Yul Ahn** (Dr. Ahn's Aesthetic Plastic Surgical Clinic)

#### Purpose and Intent

I will describe some cases and symptoms of paralytic eyelid, and explain its appropriate treatments and surgical methods. This review of surgical cases will be helpful to apply actual cases, you will encounter in the future. Q&A time will be prepared after my lecture.

### Instructional Course 7

November 3rd, Sunday, 07:30~08:10 Room II

*Basic Clinical Anatomy of Double Fold, Upper Blepharoplasty and Ptosis Surgery*

Speaker: **Dae Hwan Park** (Daegu Catholic Univ.)

#### Purpose and Intent

A subject of upper eyelid plasty tends to be demonstrated mostly in difficult or complicated cases. So, there are not enough contents about basic anatomy even though plastic surgeons have to understand the clinical information. Therefore, this course covers with the most basic contents with upper eyelid anatomy related to upper eyelid and blepharoptosis plastic surgery.

### Instructional Course 8

November 3rd, Sunday, 08:00~09:00 Room III

*Nasal tip shaping. I: Basic techniques*

Speaker: **Jae Yong Jeong** (PLUS Aesthetic Plastic Surgical Clinic)

#### Purpose and Intent

In this course, I have a time to organize basic concepts, definition and techniques of tip plasty.

## Instructional Course

### Instructional Course 9

November 3rd, Sunday, 08:00~09:00 Geumgang Hall

*The Total Face Lifting with Cadaver Dissections*

Speaker: **Ki Young Ahn** (Dr. Ahn's Aesthetic Plastic Surgical Clinic)

#### **Purpose and Intent**

This course will be based on my experiences and materials of facial lift. I have dissected corpses about 15 times, and collected many materials like pictures and video clips to take facial lift. I also have the cumulative results of patients I treat for 10 years. I will present my lecture with these materials and useful research reviewing as well as my personal story in order to find more effective facial lift techniques and methods of decreasing side effects or complications.

### Instructional Course 10

November 3rd, Sunday, 08:00~09:00 Hangang Hall

*Dual Plane Extended SMAS Lift*

Speaker: **Joo Heon Lee** (April31 Aesthetic Plastic Surgery Clinic)

#### **Purpose and Intent**

There are many techniques of facial lift with Sub SMAS dissection. However, I consider that dual plane extended SMAS face lift is the best for Asian among them. Thus, I am going to explain specific advantages of the technique and to describe sub SMAS face lift in detail.

## Paramedical Sessions

### Paramedical Sessions

November 3rd, Sunday, Geumgang Hall

- 09:00~10:00    **Paramedical Session 1**  
*Practical and effective wound management on plastic surgery patients*  
**Jong Won Hong** (Plastic Surgery, Yonsei Univ.) / 396
- 11:00~12:00    **Paramedical Session 2**  
*Makeup skills of plastic surgery patients and nurses*  
**Su Hyang Jung** (Pacific pharm Co.) / 396
- 13:00~14:00    **Paramedical Session 3**  
*Actual condition and prevention of medical disputes in plastic surgery*  
**Kyung Rae Kim** (Korea Consumer Agency) / 396
- 14:00~15:00    **Paramedical Session 4**  
*Why do patients complain?: communication skills for patients*  
**In Young Park** (Gangnam Severance Hospital, Office of Quality improvement) / 396
- 15:30~16:30    **Paramedical Session 5**  
*Cosmetic Procedures and Cosmeceuticals*            **Young Ho Park** (Amorepacific Co.) / 396

# 2013 KSPRS International

71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate–Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

## Free Paper 1 (Hand & Extr. 3min)

November 1st, Friday 07:30~08:30 Room I

Moderator: **Sung Tack Kwon** (Seoul National Univ.), **Seong Ho Jeong** (Korea Univ.)

- HE-3-01** *Advantages of the Percutaneous Multiple Kirschner wire Fixation Technique in the Treatment of Hand Fracture with Normal Bone Density: A 10-year Single Institution Experience*  
Department of Plastic and Reconstructive Surgery, Dongguk University, College of Medicine;  
<sup>1</sup>Doson Hospital, Korea  
Seong Jae Hong, Hyeung Gyo Seo<sup>1\*</sup>, Jong Ick Whang<sup>1</sup>, **Chan Kwon**, Sang Hun Cho, Su Rak Eo  
..... 2
- HE-3-02** *Clinical Considerations on Fingertip Injuries at the Rural Type City*  
Department of Plastic & Reconstructive Surgery, School of Medicine, Konkuk University, Korea  
**Hyung Min Lee**, Cheol Keun Kim, Dong In Jo, Han Moi Choi, Dong Hyeok Shin,  
Hyun Gon Choi, Soon Heum Kim\*  
..... 3
- HE-3-03** *Acquired Digital Arteriovenous Malformation Result in Amputation: A Case Report*  
Department of Plastic and Reconstructive Surgery, Kwangmyung Sung-Ae General Hospital, Korea  
**Hyung Su Kim**, Dong Chul Lee\*, Jin Soo Kim, Si Young Roh, Jae Won Yang  
..... 4
- HE-3-04** *The Value of Preoperative Identification of Perforator using CT Angiography with Preceded Metal Clip Marking by Hand-held Doppler in Perforator Flap Reconstructions*  
Department of Plastic and Reconstructive Surgery, Kosin University College of Medicine, Korea  
**Jeong Woo Lee**, Han Kyeol Kim, Sin Rak Kim, Yea Sik Han, Jin Hyung Park\*  
..... 5
- HE-3-05** *Usefulness of Retroauricular Full Thickness Skin Graft As a Donor on the Hand Surgery*  
Aesthetic, Plastic & Reconstructive Surgery Center, Good Moonhwa Hospital, Korea  
So Min Hwang\*, **Sang Hwan Lee**, Hong IL Kim, Yong Hui Jung, Hyung Do Kim  
..... 7
- HE-3-06** *The Coverage of Lower Leg Soft-tissue Defect by Regional Muscle Flap and Fasciocutaneous Flap*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Konyang University, Korea  
**Jong Hyun Cha**, Dong Chul Kim\*, Yong Hae Lee, Sung Gyun Jung, Yu Hyun Bang, Hee Su Shin  
..... 8
- HE-3-07** *Soft Tissue Necrosis after Treatment of Pincer Nail Deformity with Nail Brace: A Case Report*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Gacheon University, Korea  
Seung Ryeol Baek, **Yu Jin Kim**\*  
..... 9
- HE-3-08** *An Experience of Hydrofluoric Acid Burns*  
Department of Plastic and Reconstructive Surgery, Yonsei University, Wonju College of Medicine, Korea  
**Seun Chan Kim**, Ji Ye Kim, Sug Won Kim\*  
..... 10

## Free Paper 1 (Hand & Extr. 3min)

- HE-3-09 *Acute Calcific Tendinitis in Distal Interphalangeal Joint: A Case Report*  
 Department of Plastic and Reconstructive Surgery, Seoul National University College of Medicine,  
<sup>1</sup>Boramae Medical Center, Korea  
**Jong Ho Kim**, Jong Woo Lim, Ji Ung Park<sup>1\*</sup>, Eui Cheol Jeong<sup>1</sup>, Sung Tack Kwon, Suk Wha Kim  
 ..... 10
- HE-3-10 *Treatment of Radiation Induced Wound with Muscle Flap after Fluoroscopic Procedure*  
 Department of Plastic and Reconstructive Surgery, College of Medicine, Soonchunhyang University, Korea  
**In Ho Lee**, Yong Bae Kim\*, Eun Soo Park, Hwa Young Oh  
 ..... 12
- HE-3-11 *Anatomical Variation of Lesser Saphenous Vein*  
 Aesthetic, Plastic & Reconstructive Surgery Center, Good Moonhwa Hospital, Korea  
 So Min Hwang\*, **Hao Ching Pan**, Hong IL Kim, Yong Hui Jung, Hyung Do Kim  
 ..... 13
- HE-3-12 *Reconstruction of Extensive Lower Limb Defects with Thoracodorsal Axis Chimeric Flaps*  
 Department of Plastic and Reconstructive Surgery, <sup>1</sup>Biochemistry, College of Medicine,  
 Hanyang University, Korea  
**Young Hun Kwon**, Seung Ki Youn, Jong Do Kim, Jeong Tae Kim,  
 Kyu Tae Hwang<sup>1</sup>, Youn Hwan Kim\*  
 ..... 14
- HE-3-13 *Below Knee Amputation using a Pedicled Fillet Foot Flap*  
 Department of Plastic and Reconstructive Surgery, Chonnam National University Medical School, Korea  
**Seung Ryeol Ji**, Jang Wan Park, Jeong Min Kim, Jae Ha Hwang,  
 Kwang Seog Kim\*, Sam Yong Lee  
 ..... 14
- HE-3-14 *Scrotal Reconstruction Following Fournier Gangrene using the Superficial Circumflex Iliac Artery Perforator Flap*  
 Department of Plastic and Reconstructive Surgery, The Catholic University of Korea, Medical College, Korea  
**Hyun Ho Han**, Jung Ho Lee\*, Sue Min Kim, Young Joon Jun, Young Jin Kim  
 ..... 15
- HE-3-15 *Penile Reconstruction by Groin Flap*  
 Department of Plastic & Reconstructive Surgery, College of Medicine, Dong-A University, Korea  
 Seok Kwun Kim\*, **Tae Woong Choi**, Min Su Kim, Myung Hoon Kim, Keun Cheol Lee

## Free Paper 3 (Trauma 3min)

November 1st, Friday 07:30~08:30 Room III

Moderator: **Jun Sik Kim** (Kyungsang National Univ.), **Ho Jik Yang** (Eulji Univ.)

- TR-3-01 *Analysis of Pediatric Facial Bone Fracture between 2005 and 2012: 416 Cases*  
Department of Plastic and Reconstructive Surgery, Inje University College of Medicine, Korea  
**Tae Woon Yoon**, Young Joon Kim\*, Hoon Kim, Sang Hyun Nam, Young Woong Choi  
..... 36
- TR-3-02 *Observation of Blow Out Fracture Treatment, 5 Years Data Review*  
Department of Plastic & Reconstructive Surgery, School of Medicine, Konkuk University, Korea  
**Han Moi Choi**, Cheol Keun Kim, Soon Heum Kim, Hyung Min Lee, Ki Il Uhm,  
Hyoung Joon Park, Dong In Jo\*  
..... 37
- TR-3-03 *A Comparative Study of the Naugle and Hertel Exophthalmometer in Complex Orbital Fractures*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Dankook University, Korea  
**Hong Bae Jeon**, Dong Hee Kang\*, Sang Ah Oh, Ja Hea Gu  
..... 38
- TR-3-04 *C-Arm Fluoroscopy for Accurate Reduction of Facial Bone Fracture*  
Aesthetic, Plastic & Reconstructive Surgery Center, Good Moonhwa Hospital, Korea  
So Min Hwang\*, **Jang Hyuk Kim**, Hyung Do Kim, Yong Hui Jung, Hong IL Kim  
..... 39
- TR-3-05 *Optimal Reconstruction of Orbital Cavity using Pre-bent Titanium Mesh and Symmetrically Fabricated Rapid Prototype Skull Model*  
Department of Plastic and Reconstructive Surgery, University of Ulsan, College of Medicine, Korea  
**Sung Woo Park**, Jong Woo Choi, Kyung Suk Koh, Tae Suk Oh\*  
..... 40
- TR-3-06 *Results of Orbital Wall Reconstruction with Silastic Sheet*  
Department of Plastic and Reconstructive Surgery, Medical University of Ewha Womans University, Korea  
**Sung Jun Moon**, So Ra Kang, Hyun Suk Suh\*  
..... 41
- TR-3-07 *Minimal Invasive Reduction of Zygoma Fracture*  
Department of Plastic & Reconstructive Surgery, College of Medicine, Chungnam National University, Korea  
Seung Han Song\*, **Jae Beom Park**, Nak Heon Kang, Sang Ha Oh  
..... 42
- TR-3-08 *Reduction and Fixation Methods for Fractured Anterior Maxillary Sinus Wall using Suture Tie*  
Dr. Jeong's Aesthetic Plastic Surgical Clinic, <sup>1</sup>Department of Plastic and Reconstructive Surgery,  
<sup>2</sup>Preventive Medicine, College of Medicine, Jeju National University, Korea  
Hyun Gyo Jeong, **Jae Kyoung Kang**<sup>1</sup>, Jung Kook Song<sup>2</sup>, Myoung Soo Shin<sup>1</sup>, Byung Min Yun<sup>1\*</sup>  
..... 43
- TR-3-09 *Comparison of Cultured Keratinocyte Allograft Versus Alloplastic Material in Management of Burn Injury*  
Department of Plastic & Reconstructive Surgery, Myong-Ji Hospital, Korea  
**Dae Hyun Kim**, Kyung Sik Kim\*, Kun Woon Yoo  
..... 43

## Free Paper 3 (Trauma 3min)

TR-3-10	<i>Effective Strategy in Treatment of Second Degree Facial Burn</i> Department of Plastic and Reconstructive Surgery, Kepeco Medical Center, Korea <b>Jae Un Lee</b> , Soo A Lim*, Seung Chul Rhee, Yong Il Yoon	45

71<sup>th</sup> Congress of the Korean Society of Plastic and Reconstructive Surgeons

16<sup>th</sup> Scientific Meeting of Korean Cleft Palate–Craniofacial Association

1<sup>st</sup> Asian Blepharoplasty Forum

## Free Paper 11 (Aesthetic 3min)

November 2nd, Saturday 16:30~17:30 Geumgang Hall

Moderator: **Young Jin Kim** (The Catholic Univ. of Korea),  
**Jae Hoon Kim** (April31 Aesthetic Plastic Surgery Clinic)

- AE-3-01** *Tear Trough Anatomy Related with Fat Sliding in Lower Blepharoplasty*  
Department of Plastic & Reconstructive Surgery, College of Medicine,  
Chungnam National University, Korea  
Seung Han Song\*, **Sun Je Kim**, Nak Heon Kang, Sang Ha Oh  
..... 308
- AE-3-02** *Diverse Scar Management for Unfavorable Scar after Variable Epicanthoplasty*  
GIO Aesthetic Plastic Surgical Clinic, Korea  
**Seung Hoon Lee\***, Ji Hoon Cha  
..... 309
- AE-3-03** *Correction of Cicatricial Canthal Web after Cosmetic Lateral Canthoplasty*  
Braun Aesthetic Plastic Surgical Clinic, Korea  
**Bo Ik Suh\***  
..... 309
- AE-3-04** *Radiation Therapy Following Total Keloidectomy*  
Department of Plastic and Reconstructive Surgery, <sup>1</sup>Radiation Oncology,  
Keimyung University School of Medicine, Korea  
**Kyu Hee Kim**, Dae Gu Son\*, Jun Hyung Kim, Ki Hwan Han, Jin Hee Kim<sup>1</sup>  
..... 310
- AE-3-05** *Usefulness of Lateral Osteotomy by Wide Dissection Approach in Corrective Rhinoplasty*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Soonchunhyang University;  
<sup>1</sup>Glovi Aesthetic Plastic Surgical Clinic, Korea  
**In Ho Lee**, Bong Il Rho<sup>1</sup>, Eun Soo Park\*  
..... 311
- AE-3-06** *Efficacy and Safety of MINT (Minimal Invasive Non-surgical Thread) Lift on Deep Nasolabial Fold*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Chung-Ang University, Korea  
Woo Seob Kim\*, **Woon Il Baek**, Han Koo Kim, Tae Hui Bae  
..... 312
- AE-3-07** *Unsatisfied Nipple-areola Complex Position in Subpectoral Breast Augmentation with Anatomic Implant Through an Inframammary Incision*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Gacheon University, Korea  
**Yoon Ji Kim**, Yang Woo Kim, Hyo Seob Lim, Young Woo Cheon\*  
..... 314
- AE-3-08** *The Semicircular Horizontal Approach in Breast Reduction*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Konyang University, Korea  
**Hee Su Shin**, Yong Hae Lee\*, Sung Gyun Jung, Jong Hyun Cha, Yu Hyun Bang, Dong Chul Kim  
..... 314
- AE-3-09** *Rectus Abdominis Myocutaneous Free Flap for General Reconstruction*  
Department of Plastic and Reconstructive Surgery, Keimyung University School of Medicine, Korea  
Dae Gu Son\*, **Jung Heum Park**, Jun Hyung Kim, Ki Hwan Han  
..... 315

## Free Paper 11 (Aesthetic 3min)

- AE-3-10 *Aesthetic Reduction Nailplasty*  
Department of Plastic and Reconstructive Surgery, Chonnam National University Medical School, Korea  
**Hyun Kyo Jo**, Jae Ha Hwang, Kwang Seog Kim\*, Sam Yong Lee  
..... 317
- AE-3-11 *Hymen rejuvenation: Concurrent Vagino-hymenoplasty*  
Department of Plastic and Reconstructive Surgery, Seoul National University College of Medicine, Korea  
**Sa Hyuk Hong**, Hyo Hym Seok, Yoon Ho Lee\*  
..... 317
- AE-3-12 *The Usefulness of Individually Predesigned Silicon Implants for Calf Augmentation & Reconstruction of Asymmetric Calves*  
Department of Plastic and Reconstructive Surgery, College of Medicine, Hallym University, Korea  
**Min Su Jung**, In Suck Suh\*, Duk Kyun Ahn, Kyoung Seok Tak, Jong Do Kim,  
Byeong Ho Lee, Joo Hyun Kim  
..... 318

## Industrial Workshop / Luncheon Lecture

### Industrial Workshop 1

November 2nd, Saturday 13:00~14:00 Hangang Hall

#### Handok

Title: 스컬트라- *theory and practice*

Speaker: **Joon Yong Choi** (Euro Aesthetic Plastic Surgical Clinic)

### Industrial Workshop 2

November 2nd, Saturday 15:00~16:00 Hangang Hall

#### Galderma Korea

Title: *How to Get Better Result with Same Amount of Filler*

- *Dual Plane Injection for Full Face Sculpturing with Restylane Family*

Speaker: **Gi Woong Hong** (Samskin Aesthetic Plastic Surgical Clinic)

### Luncheon Lecture

November 2nd, Saturday

After Regular General Meeting of KSPRS

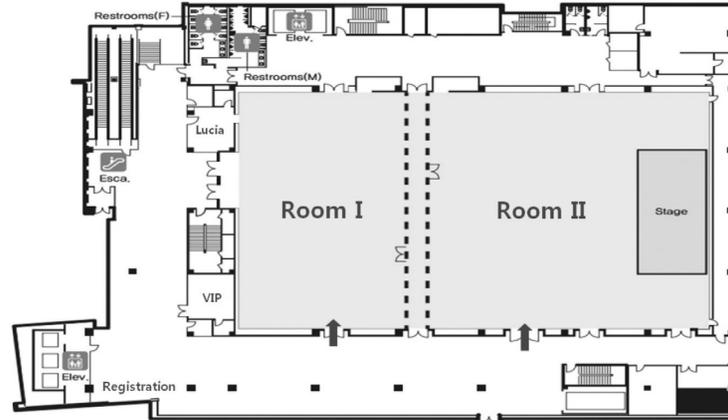

#### 신한금융/신한생명 (Shinhan Life)

Title: 사라지는 비과세 및 중여 상속에 대한 변경되는 재무설계

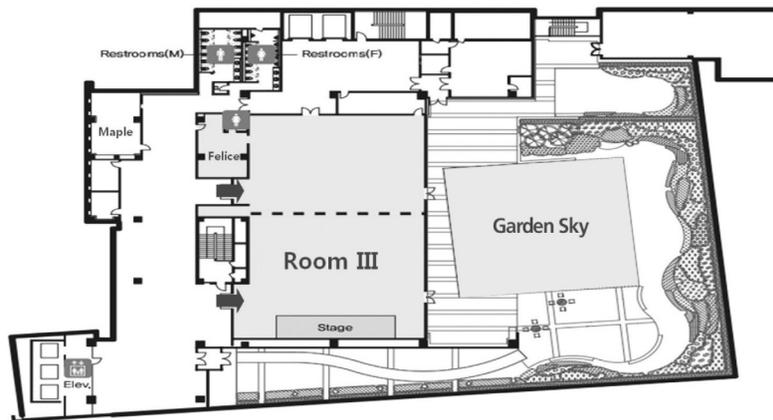

## Venue Guide

### Convention

# Lectures / Oral Narrations / E-poster Information

## Preview Room and Presentation Procedures

- Preview Room: **Donggang Hal A, 3rd Floor, Annex**
- Be sure to check if you have your slides in the Preview Room before your lecture (presentation).
- A monitor and mouse will be provided at the podium during the conference. (Use the mouse icon instead of a laser pointer for your presentation. If you definitely need a laser pointer, contact the host before your presentation.)
- The presentation materials submitted will be all deleted after the completion of the conference.
- Elapsed time will be shown on the slide screen for the smooth operation of the conference. Be aware that your mike will be turned off once your presentation time is over(it applies to free topic speakers).

## E-poster

1. Your e-poster should meet the minimum requirements including the goal, materials, methods, results, and conclusions. Even if your abstract has been selected, your poster that does not meet the format requirements or contains poor content cannot be on display.
2. You should submit your poster on one page of PowerPoint slide.
3. The members can view the submitted e-posters and recommend their favorites.
4. Since the e-poster station is used by many members, shorten your usage time as much as possible.
